

Shivam Yadav

AI/ML Engineer

+91-9080467733 shivamyadav22feb@gmail.com linkedin.com/shivam-yadav

Summary

AI/ML Engineer with a strong foundation in Artificial Intelligence and Machine Learning, specializing in Generative AI, RAG, AI Agents, and MCP. Experienced in building scalable, production-grade AI systems on Azure and AWS, delivering real-world solutions for intelligent information retrieval and decision-making.

Education

Bachelor of Engineering in Artificial Intelligence and Machine Learning	CGPA: 8.70
Bangalore Institute of Technology, Bengaluru	2020 – 2024
CBSE Class XII	Percentage: 88.20%
Kendriya Vidyalaya, Chennai	2018 – 2019

Experience

Associate Software Engineer (AI/ML)	Jul 2024 – Present
Unisys	Bengaluru

- Developed AI-powered solutions using **Semantic RAG, Azure Cognitive Search, NLP, and Multilingual AI**, building **Legal and Student Companion systems** that increased retrieval efficiency by **60%** and learning outcomes by **40%**.
- Built scalable **AI/ML and ETL pipelines** using **Python, FastAPI, PostgreSQL, ADF, Synapse, Databricks, and Purview**, enabling efficient data ingestion, governance, and production deployment.
- Designed real-time dashboards using **Elasticsearch (Azure)** and **OpenSearch (AWS)** to track resource utilization, performance, and response metrics for **460K+ users**, enhancing monitoring and operational efficiency.
- Developed a **multimodal AI RAG system** using embeddings for **law enforcement agencies**, supporting audio, video, image, & document inputs using **Nova embeddings**, with real-time facial identification across **100K+ records** using **AWS Rekognition**.
- Tech Stack:** Python, FastAPI, Generative AI, AI Agents, RAG, Multimodal AI, Vector Search, OCR, Azure, AWS, Databricks, Elasticsearch, OpenSearch, Kibana.

Student Technical Intern (AI/ML)	Jan 2024 – Jul 2024
Unisys	Bengaluru

- Enhanced ingestion, retrieval, and AI model units using **Azure Form Recognizer and OCR, semantic chunking, and open-source LLMs**, reducing model inference costs by **around 40%**.
- Tech Stack:** Azure Form Recognizer, OCR, Chunking, LLaMA, Mistral, Ollama, Python

Certifications

- Microsoft Certified: Azure AI Engineer Associate** – Expertise in designing and deploying AI solutions using **Azure AI Services**, including NLP, computer vision, and conversational AI
- Aisera Academy – AI Workflows (Basic & Intermediate)** – Hands-on experience in building AI-driven workflows, automation, and enterprise AI applications

Personal Projects

AutoScrum – AI-Powered Workflow Automation System

- Built a multi-agent AI system using **MCP** for automated requirement analysis, story generation, and task allocation, reducing manual effort by **50%+**.
- Tech Stack:** Python, FastAPI, LangGraph, OpenAI, MCP, PostgreSQL, Redis, React, Jira API, ServiceNow API

Technical Skills

Languages: C++, Python, SQL

AI/ML: ML, Deep Learning, Generative AI, AI Agents, LLMs, RAG, Fine-Tuning, NLP, OCR

Data & Search: ADF, Synapse, Databricks, Azure Cognitive Search, Elasticsearch, OpenSearch, PostgreSQL, MongoDB

Cloud & Tools: Azure, AWS (EC2, S3), Kibana, Streamlit
